

## Application Management

Your business runs on your application,. We support your application by building systems that take care of everything else it needs.

All our supported applications are professionally installed, maintained, and monitored by our 24/7/365 monitoring system. We have specialists available in the event that problems arise and guarantee the uptime.

- SQL Server: Your database is your backbone. Ensure it keeps pace with your business.
- Exchange: E-mail has become indispensable. We make sure it keeps working for you.
- Millennium 3 Payroll: Enfold IT has worked with Millennium Payroll since 2002, and provides support to several service bureaus as a consultant or as a system manager.
